

Using Login Screen

1. To access Print Terrier, enter Client Reference and Job Number in the login screen as shown below. If the Job Number has not yet been setup, Profit Centre code can be added. Press Submit.

(** Please note if a Profit Centre code has been used, then the boundaries and map can be assigned to a Job Number at a later stage, once available).

2. If neither of the Client Reference, Job Number or Profit Centre code are available, then press Cancel.

(** Please note that in this scenario, all the printed maps will contain a watermark layer suggesting the map can be used for Internal purposes only. The boundaries created using this scenario, can be assigned to a Client Reference and Job Number at a later stage, once available).

Carter Jonas CONTACT

PRINT TERRIER

You are here: [Mapping Portal](#) > Print Terrier

PRINT TERRIER

Please fill in the details below to access Print Terrier.

Client Ref

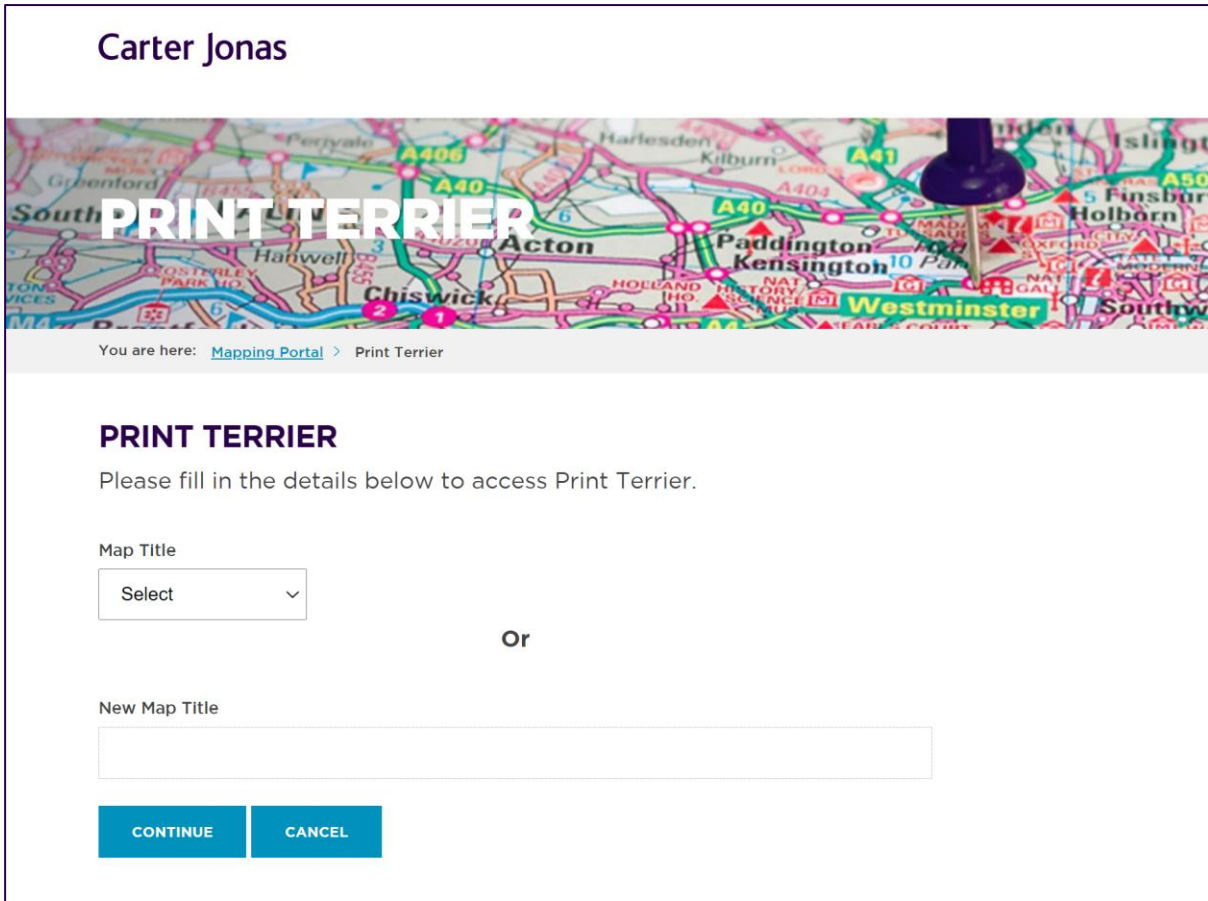

Job Number

Or

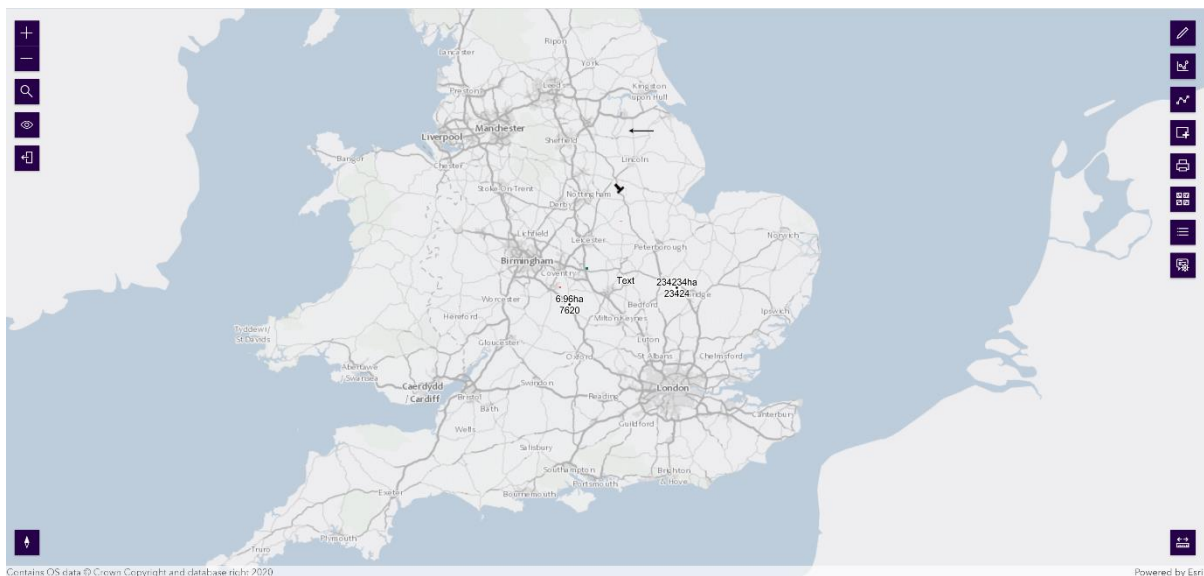

Profit Centre

3. After pressing Submit, the next screen will allow the user to select an existing Map Title or add a new Map Title. Press Continue.

(**Please note you can choose to not select or add a map title at this stage and still press Submit. The boundaries and map can be assigned to a Map Title at a later stage)

4. After pressing Continue, Print Terrier will open displaying the data corresponding to the details entered for Client Reference, Job Number, Profit Centre and Map Title.
(* Please note if no Map Title value has been entered or selected, then all the Map Titles against that Client Reference and Job Number (or Profit Centre) will be shown on Print Terrier.)
